

**MEMBERS OF**  
Nature For All

**Nature For All** builds a diverse base of support to ensure that everyone in the Los Angeles area — no matter where they live — has equitable access to nature and all its benefits.

We advocate for policies and programs that will:

**PROTECT**  
the mountains and rivers in our area, to conserve habitat and water resources and be more climate-resilient.

**CREATE**  
more natural spaces, such as parks and bike paths, in our historically underserved neighborhoods.

**CONNECT**  
people to public lands through more trails and other outdoor recreational opportunities, to improve public health.

Nature For All is a project of Community Partners, a non-profit public charity exempt from federal income tax under Section 501 (c) 3 of the Internal Revenue Code.

Nature For All, formerly San Gabriel Mountains Forever, is best known as the coalition which built support for the San Gabriel National Monument established by President Obama in 2014.

## Nature For All PROGRAMS

### Community Base-Building & Leadership Development

Through this program, we build a legacy of diverse stewardship by empowering supporters and volunteers in underserved communities to take action on parks, water and transit issues.

#### Our efforts involve:

- Developing environmental leaders with our Leadership Academy which has more than 100 graduates.
- Connecting and engaging volunteers and activists through our Emerging Leaders Program.

### San Gabriel Mountains Forever

Through this program, we advocate for and organize on behalf of federal legislation and policies that protect the San Gabriel Mountains, foothills, and rivers.

#### Our efforts involve:

- Enhancing, developing and restoring our forests, foothills, parks, watersheds and river parkways.
- Safeguarding our water supply.

### Access & Environmental Justice for All

Access to the great outdoors – to wild, open and green space – should be available to all Angelenos, regardless of race, color, national origin, or socioeconomic levels, in accordance with environmental and health justice laws and principles.

#### Along with our three core programs, Nature For All also supports efforts to:

- Provide access for all Angelenos to nature.
- Create and improve urban parks, greenways and recreational visitor facilities.
- Engage diverse communities and stakeholders in all of our efforts.

### Transit to Parks and Trails

Through this program, we work to provide Angelenos with public transit connections to parks and open spaces.

#### Our efforts involve:

- Pushing for green transportation policy outcomes in Los Angeles through the EnviroMetro coalition.
- Working closely with key partners, stakeholders and community groups to find new ways to increase access to our parks and open spaces.
